

If your fertiliser or magnesium spreader needs to be hassle-free, robust and truly well designed, look no further than the quality Agrispred® lineup.

They will rise to the occasion and won't let you down.

The Agrispred® range of spreaders all feature fully galvanised frames, UV stable hoppers and marine grade stainless steel aperture and spreading components.

Our Agrispred® range has been developed from more than 40 years of experience in the field working with farmers and contractors.

With five quad bike models and one tractor model in the Agrispred® range there will no doubt be a model to suit your needs.

FEATURES ON SELECT SPREADERS INCLUDE:

- » Dual height settings for drawbar ensures level spreading at all times
- » Stainless steel aperture and spinning discs
- » Swivel tow hitch standard for safety
- » Hoppers are supported by a full cradle
- » Adjustable spreading fins for flexible spread
- » Superior clutch mechanism

Spread far and wide with Agrispred®
